

IN3230/IN4230

Plenary session

Instructions

Prerequisites

NREC cloud

MIP

Prerequisites

- Introductory course on Operating Systems and Networks
 - For example, IN2140
- Basic C programming

Are you attending this course for the first time?

Are you a Bachelor or Master student?

What OS do you use and why Linux? 😊

What programming languages are you 'fluent' in?

<https://py.pl.github.io/PYPL.html>

Which is your favourite editor for coding?

How do you store and backup your source code?

- 27 Git repositories
- 7 I store code in my PC and use recovery tools if I accidentally delete something
- 4 USB / Hard drive
- 1 Google Drive / DropBox
- 1 I don't store code in files. I remember it and re-type every time

How proficient are you in UNIX?

How would you rate your knowledge and experience in socket programming in C?

How much AI is there in your life?!

0

None — AI? No, thank you!

0

A sprinkle — I use it like salt:
occasionally and carefully.

0

Vibe-coding — suggests snippets,
fixes bugs, and tidies my code style

0

Full takeover — AI codes , debugs,
and I submit after a quick check

Which is your favourite LLM model?
